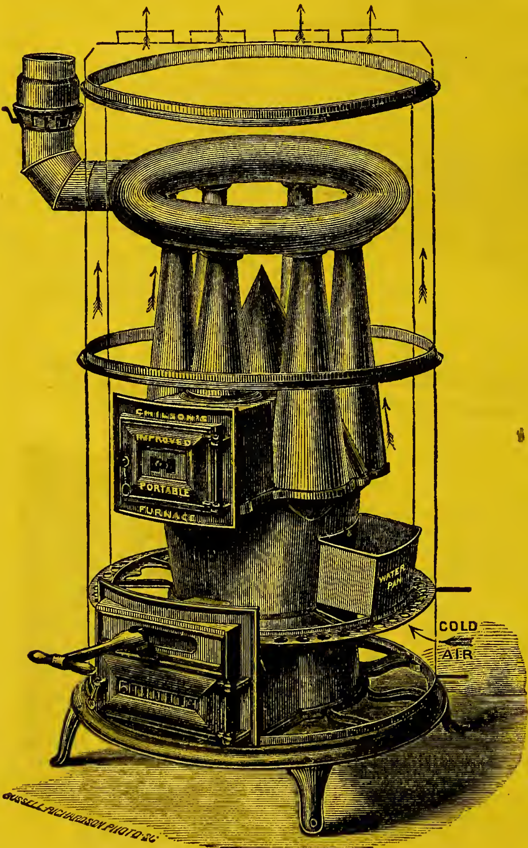
CHILSON'S
IMPROVED CONE FURNACE.

Patented in the United States, England and France.

Ten Sizes for Brick and Portable Casings.

A Gold Medal was awarded to this celebrated Furnace, at a recent Fair of the Massachusetts Charitable Mechanic Association, and the only Gold medal ever awarded any Furnace by this Association. It has also received another Gold Medal (first premium), at the Middlesex Mechanics' Exhibition, at Lowell, 1867.

This justly celebrated Furnace, now in such extensive use throughout the country, is now in much greater demand than ever, since the recent improvements have been added.



Once seen it must convince every one that it is the most PERFECT plan for WARMING buildings in this country. Its *wonderful heating* power, and great *economy* in FUEL have been more fully developed the past two years during the high price of fuel than ever before — it having proved in many cases a saving of from *forty* to *fifty* per cent over other furnaces.

Thousands of commendations and references have been received from

Churches, Schools,
Hospitals,
Asylums, and
Public and Private
Buildings.

PREFACE.

The second number of the Merrimack River Directory is herewith presented to our patrons and the public. The favor with which the first number was received in 1869 has induced us to publish this, believing, as we do, that a work embracing the directories of so many large manufacturing cities, located on one of the busiest water-powers in New England, would be appreciated and supported by the great manufacturing interests of the country. In this we have not been disappointed, as a glance at our pages will show.

We especially call the attention of the public to our advertising department, as there will be found a good representation of the large amount of business transacted upon the shores of the Merrimack river.

Our thanks are due to all who have aided us, and particularly to the Cotton and Woolen Manufacturing companies and Banking institutions, who have so generously responded to our call for support and encouragement.

LITHOGRAPHIC ESTABLISHMENT

490 Washington St.

BOSTON.

Branch Office,
No. 201
Broadway,
New York.

Notice.

OUR FACILITIES for producing Lithographic work cannot be excelled.

PRICE AS LOW IF NOT LOWER than other establishments.

IT IS A MISTAKEN IDEA *of the public that I confine myself to first class work only, for those who want a cheap class of work can have it and better work for the same price than others can produce.*

HAVING LATELY GREATLY INCREASED *my machinery and with the best corps of Printers and as large a corps of Artists as any establishment in the country I am better able than ever to fill the largest order at moderate figures and without delay.*

I am in no way connected with any other establishment in the city my only place of Business in Boston is 490 Washington Street corner of Beach Street.

Promptness a Specialty.

Very Respectfully
John H. Bufford.

The Patronage of all Solicited.

NOVELTY PLASTER WORKS.

TO THE
Manufacture
—OF—
PLASTERS
IN THE
UNITED STATES.

MANUFACTURE

Mitchell's Improved Medicated India Rubber Porous Plasters—Sure cure for all pains and aches in the body. Try one and be convinced.

Mitchell's Kid Strengthening Plasters. They are a good stimulant for all pains and lame backs. Some prefer them.

Mitchell's Corn Plasters. Patented. Sure cure for corns. So don't go limping around complaining of those painful Corns, when for 25 cents you can procure a box of Mitchell's White Felt Medicated Corn Plasters. One box will convince the most skeptical of their merits.

Mitchell's Bunion Plasters. Same as the Corns, only larger for Bunions and Swelled Joints; sure cure. Try a box. Only 25 cents.

Mitchell's Surgeon's Adhesive Plaster. Patented. Applied by moisture, and is always pliable and does not irritate. Say, Doctor, just try it once, you that have never tried it, and you will never be without it. In wide sheets, and also ready-cut and wound on small cylinders, and put up in cases for Doctors' use. Come and let us reason together, and go in for improvements and not ride in old stage-coaches any more, but jump on board the cars.

Mitchell's Pliable Isinglass Plaster. Patented. Is spread on the finest of silk, and is the best article of this kind known. Try it.

Mitchell's Court Plaster. Not stiff and irritating, but soft and pliable. Water proof, assorted colors. For ladies and children whose flesh is tender, they will find this to be just the thing for cuts, bruises, and scratches. Four pieces, assorted colors, in a neat tablet, for 25 cents. Try one.

Mitchell's Improved Belladonna and Rubber Plaster. The introduction of the Rubber keeps the plaster from drying up, or growing soft and running after being applied. Any doctor can have a sample sent free on application at our office. Once tried better appreciated.

Mitchell's Improved White Felt Lung Protectors. An old and true saying is, "An ounce of prevention is worth a pound of cure."

All of the above-named goods, and others too numerous to mention, are labeled with a fac-simile of our factory. Take no others if you want a good article. None genuine unless labeled with a picture of the Novelty Plaster Works on each box or package.
